Foldable Solar Panel SolarX Pro 80

Thank you for choosing Powerness. Please read the instructions carefully before using and keep it for further reference.

Introduction

Built with the latest solar charging technology, Powerness SolarX Pro 80 foldable solar panel provides clean and renewable electricity supply for Powerness or other brands of portable power stations, as well as a large variety of consumer electronic devices, such as smartphones, laptops or any other devices powered by USB ports.

Product Features

- Carefully selected solar cells brings reliable performance. The 23% high conversion efficiency enables Powerness solar panel to produce electricity in low-lux outdoor environment (>40000 Lux).
- Patented LCD display makes it always clear how much electricity the solar panel are producing.

Operation Guidance

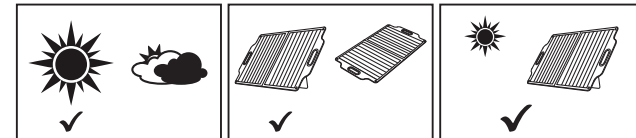

Step 1: Unfold this product and place it on it's kickstand, make sure it face towards the sun.

Step 2: Connect your device or portable power station with the solar panel (Select the corresponding connector according to the port of your device) .

The LCD display will show the current (amp) level when the solar panel is active.

Note:

Like any solar panel product, this product works at its best efficiency on hot sunny days. On a cloudy day or in a shaded area, its efficiency will be affected.

Set in direct sunlight and use the kickstand to ensure best performance

Product Specification

Model: SolarX Pro 80
Peak Power: 80W
Cell Efficiency: 23%
Power Voltage: 18V
Power Current: 4.5A
Open Circuit Voltage: 21.6V

USB-A Output: 5V = 2.4A
USB-C Cable Output: 5V = 2.4A
Operating Temperature Range: -10-65 C
Dimensions (unfolded): 104 x 53.1 x 2.6 cm
Dimensions (folded): 51.9 x 53.1 x 3 cm
Weight: 3.18 kg

Package Content

1 x Powerness SolarX Pro S80 foldable solar panel 1 x DC 7909 Female to DC Male 4017/5521/6330 Connector
1 x User Manual

Customer Service

We provide customers with a warranty of 24 months from the date of purchase. Email to service@powerness.com for support.
